DOE Fractional Rejuvenation	\$500
Post Inflammatory Hyperpigmentation	Full face \$500, Half Face \$300, Spot treatment \$150
Skin Brightening and Toning	\$300

Skin Brightening & Toning

This treatment refreshes dull, tired skin by targeting uneven tone and texture. Laser energy stimulates collagen, reduces pigmentation, and restores a radiant glow—perfect for anyone wanting brighter, smoother skin.

Fine Lines & Texture Improvement

Designed to soften visible signs of ageing, this treatment boosts collagen production to reduce fine lines and wrinkles while refining skin texture. The result is firmer, smoother, and more youthful-looking skin.

Acne Scar & Texture Refinement

This treatment targets acne scars and rough skin texture by breaking down old scar tissue and stimulating fresh collagen. Over time, scars fade, pores appear smaller, and skin feels more even and refined.

Pigmented Lesion Removal

Safely reduces unwanted pigmentation including freckles, age spots, melasma, and sun damage. The laser breaks down excess pigment so your body can naturally clear it, leaving skin brighter, clearer, and more even-toned.

Carbon Laser Peel (Hollywood Peel)

A powerful yet gentle treatment that uses a carbon mask and laser energy to deeply cleanse, reduce oil, clear pores, and brighten skin instantly. It's the perfect glow-up before an event, with zero downtime.

DOE Fractional Rejuvenation

Using advanced fractional laser technology, this treatment penetrates deeper layers of skin to trigger collagen renewal without damaging the surface. It smooths wrinkles, tightens skin, and improves overall elasticity.

Post-Inflammatory Hyperpigmentation (PIH) Treatment

Targets stubborn dark marks and discoloration left behind after acne, inflammation, or injury. The laser gently lightens pigmentation, restores clarity, and blends skin tone for a healthier, even complexion.
